Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis,

I would like to request that you chart a smarter course for California through the CALFED Bay/Delta program, a plan for how to protect and use California's water resources for the next 50 years.

I care dearly about protecting our rivers, bays and drinking water and urge you to ensure that the CALFED program achieve the following:

Invest in water efficiency for at least seven years before even considering new dams or reservoirs.

Restore our rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers.

Improve water quality for people and wildlife by enforcing pollution limits.

Stop making taxpayers pick up the tab for studies of new dams and reservoirs that flood valuable habitat and remove needed water from our rivers.

Thank you for your consideration of these matters.

Sincerely,

Kathy McClure
